SHEPHERD STATE TEACHERS COLLEGE

HISTORY

Shepherd College dates its founding as a State Normal School and Teachers College to an Act of the Legislature of West Virginia, passed February 27, 1872; but it had its incipency in a classical and scientific school styled "Shepherd College," certificate of incorporation of which is on record at Charleston, January 12, 1872. As an inducement to secure a Normal School here the trustees of this private school offered its building to the State free of charge for use as a State Normal School, which offer was promptly accepted, and work under State control began in September, 1872. By authority of the State Board of Education it became a four-year teachers college, July 1, 1930, and the 1931 Legislature changed its name to Shepherd State Teachers College.

LOCATION

The location of the college is most ideal. Situated in the charming old town of Shepherdstown, nestled on the cliffy crags of the beautiful and historic Potomac which sweeps in graceful curves across the Shenandoah Valley at this point, remarkably free from all insidious fevers and diseases, with a wholesome social and moral atmosphere, an educated and cultured community, comparatively easy of access, it affords unsurpassed attractions and advantages to the earnest student.

The college is located on scenic and historic ground. To the east loom up the fine wooded sides of the Blue Ridge, and to the west those of North Mountain. The Potomac River flows past the town and affords fine boating and fishing, while on its northern bank is the old historic Chesapeake and Ohio Canal. To the south and north spreads out the broad, beautiful and historic Valley of Virginia. Three miles north is Sharpsburg and the battlefield of Antietam with its fine monuments and the National Cemetery, while some seventy miles to the south is the famous Luray Cavern. The same distance to the east is Washington, the National Capital. All of these things cannot fail to leave their permanent impress on the mind of the observant student.

HOW TO REACH SHEPHERDSTOWN

Shepherdstown is on the Norfolk and Western Railroad, which connects with the main line of the Baltimore and Ohio Railroad at Shenandoah Junction, six miles to the south; or with the Western Maryland Railroad at Hagerstown, Md., eighteen miles to the north.

Students who live on or near the Baltimore and Ohio lines will come via that road to Martinsburg, and take bus at the Blue Ridge Terminal to Shepherdstown, a ride of eight miles. On week days the Shepherdstown bus leaves Martinsburg at 7.45 a. m., 12.05 p. m., and 5.15 p. m. On Sunday the bus leaves Martinsburg at 9.35 a. m. and 8.35 p. m.

CONDITIONS OF ADMISSION

Admission will be based upon graduation from a standard high school which according to the new rules of the State Board of Education means the completion of sixteen standard units. It is provided that any curriculum prescribed or provided for in the new high school course of study for West Virginia may be accepted as meeting this requirement.

A student with fifteen units of approved high school work may be admitted on condition that the additional unit of work, in equivalent hours, is to be made up before the beginning of his second year.

By special order of the State Board of Education, teachers of experience and others preparing to teach who are at least twenty-one years of age may be admitted and assigned to such college work as they are able to carry. In making up any deficiency in high school work, six college hours may be substituted for a unit of high school work.

Suggested High School Curriculum for Prospective Teachers

Type curriculum for the ninth, tenth, eleventh, twelfth grades—recommended for high school students who are expecting to teach:

English	4 Units
Social Studies	3 Units
Science	2 Units
Mathematics	2 Units
Vocational Subjects or Languages	2 Units
In one of the preceding groups one additional unit....	1 Unit
Health, Physical Education, Art and Music	2 Units
Total	16 Units

CREDIT FOR WORK DONE ELSEWHERE

Credit will be given students for satisfactory work done in other normal schools and colleges of the State, and also for work completed in such high schools, academies, seminaries, etc., as will be seen, in the estimation of the committee, to deserve accredited standing, or are accredited either by The Southern or North Central Association. Before receiving such credit students must present a written statement from such school, signed by the principal or superintendent, setting forth in detail the work satisfactorily completed there.

Credit from classified high schools in West Virginia will be accepted unit for unit, provided the work has been done according to the plan laid down by the State Board of Education.

These credits must be sent before the student's entrance to the President or to Dean Kenamond, Chairman of the Committee on Credits.

HOW TO ENROLL

The student on the opening day of a term or semester should see the Registrar in the Library, fill out an enrollment card, and then pay the tuition fee to the Secretary found in the room adjoining the President's office. If any work has been done elsewhere, credits should be presented to the Dean, who will indicate in a general way the classification of any student. Students should then present themselves to their respective class officers (page 8), who will be found in their regular classrooms and will assist the student in making out programs of work. All students, except entering freshmen, should carry their "course books" or complete list of credits with them when consulting about class assignments. The class assignment card should then be exchanged for class tickets which will be taken up by the instructor at the first class meeting.

CLASSIFICATION OF STUDENTS

Classification of students is made at the opening of the regular school year in September on the following basis: first year, less than 23 semester hours; second year, 23 to 50 semester hours; third year, 51 to 86 semester hours; fourth year, 87 or more semester hours; unclassified, mature students who lack a portion of the required units for high school graduation; special, students who wish only a partial schedule with major work in art or music or commercial subjects. Students entering for a later term or semester are classified on the basis of 32 semester hours for second year, 64 for third year, and 96 for fourth year.

AMOUNT OF WORK TAKEN

Thirty-six semester hours for the year is the maximum amount of work allowed. Thirty-four hours will usually prove sufficient for the average student. The student's first semester's work will be restricted to 16 hours, or 17 hours if physical education is included, and the work of any subsequent semester to 18 hours. The student's work in any subsequent semester will be limited to 16 hours, unless preceding work has reached a quality point average of one. Exceptions to these rules may be made only on petition to the Committee on Credits.

EXPLANATION OF TERMS

A semester hour consists of one hour recitation with two preparation hours per week for eighteen weeks. Two laboratory or shop periods per week equal one hour's work. Periods are 60 minutes in length.

Program means the daily scheme of work.

LATE ENTRANCE

All students are urged to enroll on the first day of a semester or term, but sometimes the opportunity to attend school does not open up to the student until the term is well started. To avoid any disappointment on the late arrival, a student wishing to enter after the sixth day of a six weeks term, the ninth day of a nine weeks term, or the eighteenth day of an eighteen weeks term, should write the President for permission to enter late.

A fee of \$2.00 is charged for late registration.

ABSENCE FROM CLASSES

Students who are absent from classes may secure excuses at the President's office. If no excuse is granted a proportionate deduction is made from the final grade. If a student has been absent 15 per cent of the class periods for any cause, no grade can be given without permission by the Committee on Credits.

To be accepted, the excuse must be presented to instructor within one week after the absence was incurred.

WITHDRAWAL AND CHANGE IN ASSIGNMENT

Students desiring any change in assignment or permission to withdraw from any other course should consult the Dean. Necessary withdrawals from school should be reported to the Dean's office to avoid having all work reported as failures. Unauthorized withdrawals from class or school are reported as failures.

Withdrawal from the college must also be reported, and financial clearance made, at the President's office.

MARKING SYSTEM

A—Superior; B—Good; C—Average; D—Below average, lowest passing mark; E—Condition; F—Failure; I—Incomplete; W—Withdrew before mid-semester; WP—Withdrew passing after mid-semester; WF—Withdrew failing after mid-semester; E—Condition, indicates unsatisfactory work. When the condition is removed the grade cannot be higher than D.

If the deficiency reported by E is not made up within a year, the grade automatically becomes F.

I—Incomplete is given to all students who miss some of the last exercises because of illness or other equally good reasons. When the work missed is done satisfactorily the final grade may be any of the four passing marks.

If the deficiency represented by I is not made up within a year, the grade I automatically becomes F.

In a typical, unselected group of 100 college students, we should normally expect to find approximately: A, 7; B, 23; C, 40; D, 23; I, E, and F, 7.

Quality Points

- A—3 quality points for each semester hour of credit
- B—2 quality points for each semester hour of credit
- C—1 quality point for each semester hour of credit
- D—0 quality points for each semester hour of credit

Quality points are transferable among the colleges under the jurisdiction of the State Board of Education.

Honor Distinctions

Students with averages of 2.50 or above graduate with high honors.

Students with averages of 2.00-2.49 graduate with honors.

Any student who fails to pass on 50 per cent of the work carried in any semester will not be permitted to enroll the following semester without permission of the President.

AVERAGE NECESSARY FOR GRADUATION

While D is the passing grade for any subject, a weighted average of C on all subjects, or a total number of quality points equal to total semester hours of credit, is required for graduation.

Candidates for degree for high school teaching must average C in each teaching field and in the twenty required hours of education.

SPECIAL CURRICULUM REQUIREMENTS FOR GRADUATION

Under Courses of Study appearing later in this catalogue may be found a statement of constants and special requirements for the different degrees and diplomas.

As a member of The American Association of Teachers Colleges, Shepherd State Teachers College requires that at least one-third of the work toward any degree, or 43 semester hours, be elected from courses numbered 300 or above.

APPLICATION FOR GRADUATION

The Dean's office provides a blank form of application for graduation adapted to ready checking against requirements as to subject groups. Students not in residence throughout the regular year in which they hope to meet requirements for graduation by summer term attendance should write for application for graduation not later than February 15.

Candidates for graduation are required to be present, in cap and gown, at commencement exercises in June of the year in which they complete the work for a degree.

ADMISSION TO DIRECTED TEACHING

Requirements for admission to directed teaching are as follows:

1. Quality points equal to total semester hours of credit up to the time of admission, for directed teaching in either elementary or high school.
2. Quality points equal to total semester hours of credit on the teaching subject, for directed teaching in high school.
3. Reaching of prescribed standard in the required standard tests mentioned on page 22 and page 48.

ENROLLMENT AND TUITION FEES

The State Board of Education has adopted the following fees:

West Virginia Students	\$25.00 a semester
Non-Resident Students	\$45.00 a semester

An additional fee of \$5.00 per student per semester is charged for athletics and other student activities.

Summer School	\$25.00
Extension Courses	\$5.00 per semester hour

FEEES FOR PART-TIME STUDENTS

For students doing less than full work of a semester, the fees are as follows: For 1 semester hour, \$5.00; for 2 semester hours, \$8.00; for 3 semester hours, \$10.00; and \$3.00 for each additional hour up to and including 8 semester hours, after which full tuition shall be charged.

Special fees for Summer School at \$15.00 up to 4 hours; above 4 hours the full fee is charged.

REFUNDING FEES

Students withdrawing from the college before the end of the second week of a semester may obtain a refund of three-fourths of the fees paid. Students withdrawing before the end of the fourth week of a semester may obtain a refund of one-half of the fees paid. After the end of the fourth week no part of the fees can be refunded.

For the Summer Term no fees are refunded after the end of the second week.

EXPENSES

Board and Room	\$180.00	\$180.00
Books and Stationery	25.00 to	30.00
Laundry	20.00 to	30.00
Tuition	50.00	50.00
Total for Resident Students	\$275.00 to	\$290.00
Total for Non-Resident Students	\$315.00 to	\$330.00

To this should be added traveling and incidental expenses, which will vary with the distance traveled in coming to the school, and the personal habits and inclinations of the student.

APPROVED DEFINITION OF RESIDENCE

The residence of a person under 21 years of age is fixed by the residence of his parents, bona fide guardian, or the parents with whom he makes his home.

NOTE: A person named as a guardian for the purpose of obviating this provision is not a bona fide guardian. A declaration of intended residence in the state of West Virginia shall not constitute citizenship within said state for the purpose of establishing residence under this provision.

A resident student is one whose actual bona fide residence is within the state of West Virginia.

A person who resides in another state and comes into West Virginia for the purpose of attending School, or for any other temporary purpose, must pay the tuition fee fixed for a non-resident student.

BOOKS

Students will do well to bring with them any books they may have, but should not purchase new books until they have enrolled and been assigned to their courses.

Students of the more advanced classes frequently have second-hand books for sale at from three-fifths to four-fifths of the original cost.

New books may be secured from the College Book Store, at approximately one dollar per semester hour of credit.

BOARDING

Dormitory—So far as accommodations allow, young women without relatives in town will room and board in the dormitory.

A reservation fee of \$5.00 should accompany each application for dormitory accommodations.

All the bed linen and towelings for the dormitory rooms are furnished by the State, but each student is requested to bring a pair of woolen blankets for the bed and also one small rug suitable for use before the dresser or study table or bed, also bathrobe and bedroom slippers.

Private Families—Many of the best homes in the town accommodate student roomers and boarders. Young women who fail to secure places in the dormitory take advantage of the privileges, and men also find accommodations with private families, where they seem to be well satisfied with their treatment. Board and room with private families varies from \$6.00 to \$8.00 per week.

The President has jurisdiction over these boarding places and persons who keep student boarders are required to enforce any regulation in reference to the conduct of students in their homes which he may from time to time find it necessary to prescribe.

STUDENT LIVING

The following is an order of the State Board of Education for all colleges where dormitories are maintained for women:

“The college authorities acknowledge only the relationships of: grandparents, parents and a married brother or sister as justifying a woman student to sign ‘Living with relations.’

“The college authorities do NOT recognize that a woman student may register to live with aunts, uncles, cousins, or friends. Such arrangements are looked upon as exceptional and will be granted by the Dean of Women only upon personal application of both parties and under very unusual circumstances.

“The Housing Regulations pertain to ALL women registering in colleges under control of the State Board of Education, regardless of age or marital status, and are in effect during all sessions, summer as well as spring and fall.

“A complete list of approved rooming houses for colleges under the supervision of the State Board of Education may be procured from the offices of Dean of Women.”

DORMITORY RULES

The following rules have been adopted by the State Board of Control:

1. No person shall room in the dormitory who does not board there.
2. No student who is not a resident of the State of West Virginia shall room in the dormitory, except by special permission.
3. The rates are as follows:

Board per week	\$4.50
Rooms, per week, per person	.50

Each application for dormitory accommodations must be accompanied by a fee of \$5.00 which will be applied toward payment of dormitory fees. In no case will fees be returned.

The rules and regulations for the government of the dormitory are designed to meet the intellectual, social and moral needs of the students and are rigidly enforced. Any student who steadfastly refuses to conform to the regulations shall be dismissed from the school. No deductions are made on account of absence from the dormitories except at the regularly scheduled holiday vacations, and in cases of illness.

Students are required to replace all broken or useless electric light globes in their rooms during their occupancy.

STUDENT LOAN FUND

A few years ago a student loan fund amounting to about \$150 was contributed by alumni of the school, and several worthy young people have already been aided. The class graduating in 1917 invested \$100 in a Liberty Bond, and the faculty at the same time invested \$50, both contributing thus to the loan fund. Since that time the contributions have been increasing in number until the fund now approaches \$500.

The Y. W. C. A. contributed \$50 to the fund in 1927. Miss Ella M. Turner also makes a contribution of \$50.00 annually.

The class of 1926 left \$150 as a class fund which is to supplant the Student Loan Fund.

The fund is in charge of W. H. S. White, president of the school and ex-officio chairman of the loan committee; Ella M. Turner, member of the faculty and alumni; and Mrs. Llewellyn Potts, president of the alumni association. Applications for loans from the fund should be made to the president of the school.

Last year students were loaned \$1,000 from the West Virginia Knight Templar Student Loan Fund. This is a great boon to deserving students. The amount is limited to \$250 a year to each student.

RELIGIOUS INFLUENCE

It is not to be supposed because this is a State School and in no way connected with any religions denomination or sect that it encourages any the less character building and religious living. On the contrary, it is often found that the moral and religious atmosphere that pervades State schools such as this is in every way wholesome and as conducive to upright Christian living as that of schools which are under the control of some religious sect.

MILLER HALL

Students are expected to attend at least one service each Sunday in the church of their choice. Shepherdstown has most excellent advantages in this regard, there being no fewer than seven churches having regular services, presided over by a clergy of unusual ability for so small a town. Students are welcomed to their services by both pastor and congregations and find here a pleasant church home. Most of the students are active workers in the Sunday schools and churches, as are also most of the members of the faculty.

A Young Women's Christian Association and a Young Men's Christian Association are active organizations of the college.

SOCIAL DIVERSIONS

Social diversions of a pleasing and cultural character are not lacking at Shepherd Sollege. Receptions are given each year by the faculty and the various student organizations. All these functions are given under proper supervision and they do much toward bringing about the cordial and sympathetic relationship between faculty and students that is so characteristic of this school.

GENERAL REGULATION ON DISCIPLINE

The regulations of the college shall require from every student decorous, sober, and upright conduct so long as he remains a member of the college student body, whether within the college precincts or anywhere else.

The president and faculty shall have authority to formulate specific regulations for the administration of this provision.

TRANSCRIPT OF CREDIT

At the end of any semester or term, students who wish to discontinue their work or to transfer to another institution may secure transcripts of their credit and certificates of honorable dismissal by applying to the Dean, and submitting clearance slips from the Book Store, Library, Dormitory and Treasurer that all bills are paid. No charge is made for the first transcript, but each copy thereafter will be charged for at the rate of one dollar (\$1.00) per copy. Carbon copies of transcript are charged for at the rate of 25 cents per copy.

EQUIPMENT

BUILDINGS

The school has now six large and commodious buildings in which to carry on its work. The oldest of the six is the original Shepherd College, now McMurran Hall. This was transferred by perpetual lease to the Board of Trustees of Shepherd College by Shepherd Brooks, Esq., of Boston. This board, which is a self-perpetuating body, put the building at the State's disposal for normal school purposes at the school's first founding; and it was the sole home of the school continuously until 1897, when the school occupied a new building erected just north of the College, which was destroyed by fire in the spring of 1901. The "Old College" is now used by the biology and music departments. It contains six commodious rooms.

Adjoining the above is Reynolds Hall (the old Town Hall), which was erected in 1889 by the citizens of Shepherdstown and was put at the disposal of the school. It was used until recently for commencement exercises, lectures, receptions, etc., and was the place for holding chapel exercises. It is now used for theatricals and the speech arts.

The main college building, Knutti Hall, was completed and first occupied in the spring of 1904. It is thoroughly modern and well appointed. The basement contains a large gymnasium, lavatories, toilet rooms, a manual training shop and laboratories for the physics and geography departments. The first floor contains the President's office, Dean's office, library, cloak rooms and six commodious class rooms. On the second floor are found a fine auditorium, with seating capacity of about seven hundred, five class rooms, offices and rest rooms. This building, as also the other, is heated by hot water. The boiler room is a short distance from the main structure. The building is lighted by electricity.

WHITE GYMNASIUM

In a climate like ours, where much of the year the weather is unfit for out-of-doors sports, it is essential that schools have gymnasiums of dimensions adequate to admit of various indoor games and exercises, and equipped with all needed appliances for the development of the physical man. Shepherd State Teachers College possesses such a gymnasium in its new physical education building. It has ample room for basketball, tennis and indoor baseball, and is used continuously by the students. Physical education classes are held in this building and are open to both sexes.

FAIRFAX FIELD

This fine field lies in the rear of Miller Hall and is entirely adequate for all open air games, football, baseball, hockey and track.

MILLER HALL

This hall for women is a three-story colonial dormitory just two squares from the main building. It is modern in every detail and offers advantages that have been demanded by our patrons for some years. The dining room with a capacity of one hundred or more, laundry, kitchen, serving room and the heater room are on the first floor. On the second floor are a large reception room, a rest room, library and nine bed rooms 15-12. Each bed room contains two closets with shelves and lavatory with hot and cold water. Bath room and lavatories are found at each end of the corridor. The third floor contains thirteen bed rooms, a hall and lavatories. The east, north and south sides have porches. All inquiries concerning room should be addressed to the President of the school, or to Miss Mabel Hall, Dean of Women.

RUMSEY HALL

The Men's Dormitory in the center of town is of red brick, contains twenty-seven bed rooms, two reception rooms, and is equipped with bath rooms, lavatories, electric lights and steam heat. All meals are served in the dining room at Miller Hall.

Reservations may be made by applying directly to the President.

LABORATORIES

The Biology Laboratories occupy three rooms equipped to meet increasing needs growing out of the enriched curriculum. They are plumbed for water and furnished with biological tables accommodating thirty-two students at one time. These laboratories have an excellent collection of zoological and botanical specimens, numerous anatomical and zoological models, and a fine collection of apparatus for physiology, bacteriology, and histology. This is one of the best equipped laboratories for botany, zoology, nature study, etc., to be found anywhere.

The Chemistry Laboratory has accommodations for twenty-four students at one time, and is equipped with all necessary chemicals and apparatus for standard work in first and second year college chemistry. A blau gas system renders the heating the same as with natural gas.

The Physics Laboratory is well supplied with demonstration apparatus and complete sets of apparatus for individual experiments.

Numerous geological specimens, maps, tellurians and charts meet the needs of geography for illustrative teaching.

THE HOME ECONOMICS COTTAGE

The Domestic Science Department is fitted with an electric range, an oil range, tables for twenty-four students, and all necessary culinary apparatus for individual and group work. Four domestic art Singer sewing machines and cutting tables are provided. The new Home Economics Cottage is one of the most admired and artistic buildings on the campus.

LIBRARY

The library occupies an attractive and well lighted section of the first floor of Knutti Hall extending nearly the length of the rear of this building. It contains approximately 15000 well-selected volumes including well-known reference books, authoritative writings on education, and representative literature of outstanding modern authors as well as the classics of the past. About 150 general, technical, and professional periodicals are subscribed for, covering all courses in the curriculum emphasizing especially those relating to elementary and secondary education. The library offers a pleasant environment for study and research. It is open from 8:00 a. m. until 5:00 p. m. every school day and from 9:00 a. m. to noon on Saturdays.

STUDENT ACTIVITIES

Young Women's Christian Association—The regular time of meeting is Monday evening.

Young Men's Christian Association—The regular time of meeting is Monday evening.

The Picket—This school paper now in its forty-second year is issued twenty times a year by a staff of student editors with the approval and help of the faculty. The class in journalism offers regular credit.

County Clubs—Several years ago the students from each of the several counties of the eastern panhandle formed organizations which have been active in increasing fellowship among their own number as well as letting the home folks know through the county newspapers of their activities at Shepherd College.

Alpha Psi Omega—This is the National Honorary Dramatic Fraternity of the campus. It was founded at Fairmont State Teachers College in 1925 and chartered at Shepherd State Teachers College in 1932.

Membership in the fraternity is restricted to those who have done sufficient amount of dramatic work in high school to be qualified as a pledge. After one becomes a pledge a certain amount of points must be worked off and the formal examination successfully passed before he can be initiated into membership.

Forensic Society—Shepherd has always taken an active part in intercollegiate debating and oratory. All students interested in forensic work are urged to try out for either debate or oratory. Individuals are selected to represent the college in intercollegiate contests by eliminations held earlier in the season. English credit is given for participation in either debate or oratory.

Debating teams usually compete with the West Virginia colleges, Shippensburg (Pa.) Teachers College, Western Maryland College, Bridgewater College, Emory and Henry College, and in the tournament of the South Atlantic Conference held at Winthrop College, Rock Hill, North Carolina.

Social Fraternities—Social fraternities are represented by the Phi Chi Sorority and the Theta Sigma Chi Fraternity.

The Student Association—This is directed by the student president, vice-president, secretary-treasurer and members of the student council elected two from each class.

This association has a committee on social activities, a committee on student publications, and a committee on athletics.

Award of athletic insignia and gold medals for intercollegiate orators and debaters are made through this association.

The Shepherd College Choir—The Choir was organized in September, 1936, for the purpose of offering opportunity for study and public performance of the best choral literature, especially that of the 'a capella' style. In addition to concerts given locally, the choir takes an extended tour. To meet the exacting requirements essential to a perfect performance, the choir practices four times a week. Students who wish to gain entrance to the choir must make application for membership and take tests for talent and ability during the first week of the first semester.

COURSES OF STUDY

Three courses of study are offered, as follows:

1. Standard Normal Course, consisting of two years and preparing for teaching in the elementary school.
2. College Course, consisting of four years in preparation for teaching in elementary school and leading to the A. B. degree in elementary education.
3. College course, consisting of four years in preparation for teaching in high schools and leading to the A. B. degree in secondary education.

REQUIREMENTS FOR CERTIFICATION OF ELEMENTARY SCHOOL TEACHERS AND PRINCIPALS

A TWO-YEAR PROGRAM FOR THE TRAINING AND CERTIFICATION OF ELEMENTARY TEACHERS AND PRINCIPALS

Special Requirements in English, Arithmetic and Writing

In order to insure adequate preparation of teachers in certain fundamental subjects, students who are admitted to any of the curricula for elementary teachers must attain a definite standard in the following subjects: English, composition, spelling, and arithmetic—the eighth grade norm on a standardized test; and penmanship—70 on the Ayers' scale. Students who fail to meet the specified standards in these subjects will be required to do additional work for which no collegiate credit will be given.

It is suggested that all students considering preparation for teaching in high schools, not later than the beginning of their junior year, declare this intention to the Dean of the College, or Head of the Department of Education in which such preparation shall be completed. Such declaration should be accompanied and followed by successive proposals outlining courses to be completed in order that the students may complete effectively the requirements for certification and recommendation as outlined in this bulletin.

Recommendation of Candidate for Certificate

Each candidate for any certificate must be recommended by the faculty of the department of education, teachers college, or college of education of the university or college in which his resident requirements have been fulfilled. This recommendation will be based upon evidence of having completed in a satisfactory manner the certificate requirements of this bulletin; a proper professional attitude; evidence of good character and the average grade of the system of marking in use in the school, in each teaching field, and in the number of required hours of professional course; provided further than admission to Directed Teaching shall be subject to the foregoing rule (or the honor point average equivalent).

REQUIREMENTS FOR CERTIFICATION OF HIGH SCHOOL TEACHERS

A PROGRAM FOR THE TRAINING AND CERTIFICATION OF TEACHERS AND ADMINISTRATORS FOR JUNIOR AND SENIOR HIGH SCHOOLS

The following requirements relating to the training of junior and senior high school teachers and administrators shall not be retroactive for any who have registered for teacher-training before the date of adoption by the State Board of Education (July 1, 1934); provided, however, any candidate may qualify under the old or the new requirements until July 1, 1937, from which date all who apply for certification shall qualify under the new requirements.

I. AIMS AND PRINCIPLES:

1. This program aims to provide for the junior and senior high schools in West Virginia an adequate supply of well trained teachers and administrators.

2. The selection of recruits for teachers of junior and senior high schools should be carefully studied by all teacher-training institutions. Complete data of high school success, mental ability, achievement in the early years of college work, personality ratings, professional attitudes, and health should be considered. Recruits who come from elementary teaching to qualify as secondary teachers are probably satisfactory, yet the transfer always entails losses for the teacher and is doubtless an economic loss to the state.

3. The program attempts to maintain a proper balance between good general preparation for all teachers and specific preparation in the teaching subjects.

4. While the personality of the recruit for the profession must be respected, yet the training of teachers is assumed to be a function of the state. It is highly desirable that the state function economically and effectively in this task. To this end the number and kind of teaching positions now existing in the state or which will probably exist within the near future constitute the basis for the standards set by this program.

5. While this program makes provisions for four as well as five year curricula, it anticipates that within a few years the five year curriculum will be required of all high school teachers.

II. STATEMENT OF POLICY IN ADMINISTRATION:

Inasmuch as the training of teachers is done by a large number of institutions under somewhat varied conditions, no attempt is made to prescribe curricula and courses of study in every detail. Its purpose is rather to guide and direct educational institutions in a state teacher-training program which will attain a reasonable degree of uniformity and be at the same time practical and effective in meeting the essential standards of scholarship and training that the teaching profession of

West Virginia demands. In the certification of teachers it is recommended that these requirements and regulations be given a reasonable and liberal interpretation rather than a technical one. Care should be taken in such a program not to suppress the initiative of any progressive educational institution. It is expected, however, that all institutions in the state will conform to the spirit of these requirements and suggestions. Institutions that do not make a reasonable effort to comply with these regulations will not be accredited for teaching certification.

III. REQUIREMENTS FOR CERTIFICATION:

All persons who qualify for a first class high school certificate shall hold at least a bachelor's degree and be prepared to teach in at least two subject groups or high school teaching fields with a minimum number of semester hours in each field and distributed as outlined for each field. No person will be certified to teach in one subject nor in one field only, nor to teach in a single high school subject, except as provided for under special certificates. A third or fourth subject field may be added to any certificate provided the applicant has completed, in addition to the work required in two teaching fields, three-fourths the total number of hours required for a first class certificate in the third and fourth subject field, provided that third and fourth subject fields shall be minor teaching assignments only.

Library as a third subject may be added to any high school certificate provided the applicant has completed in addition to the work required in two teaching fields, eight semester hours of library work including two hours of library practice. The holder of a certificate with library as a third subject may be employed full time in larger schools with the consent of the state high school inspector until the supply of such teachers is adequate to meet the needs of the state.

A special certificate for teachers in a single subject may be issued only to anyone who has qualified for a five year high school certificate, based on a bachelor's degree, and in addition has completed a minimum of ten graduate hours in the subject named on certificate, and ten hours' graduate work in Education.

It is suggested that all students considering preparation for teaching in high schools, not later than the beginning of their junior year, declare this intention to the Dean of the College, or Head of the Department of Education in which such preparation shall be completed. Such declaration should be accompanied and followed by successive proposals outlining courses to be completed in order that the students may complete effectively the requirements for certification and recommendation as outlined in this bulletin.

Each candidate for any certificate must be recommended by the faculty of the department of education, teachers college, or college of education of the university or college in which residence requirement have been fulfilled. This recommendation will be based upon evidence of having completed in a satisfactory manner the certificate

requirements of this bulletin; a proper professional attitude; evidence of good character and the average grade of the system of marking in use in the school, in each teaching field and in the twenty required hours of professional courses; provided further that admission to Directed Teaching shall be subject to the foregoing rule (or the honor point average equivalent).

Teaching Combinations

The teaching combinations of this bulletin represent those most frequently needed in the high schools of West Virginia. Other combinations of subject matter fields than those provided for in this bulletin may be recognized for certification. The applicant for a certificate with unusual combinations should be aware of the difficulties in securing a teaching position with such combinations other than those listed in this bulletin. Combinations may be reversed, that is, Agriculture and Biology may read Biology and Agriculture, etc.

The following table lists the Teaching Fields and indicates the approved Teaching Combinations:

(a) General academic requirements 1 to 5, inclusive, will be satisfied when they have been completed in individual curricula.

(b) Military Science will not be accepted as Physical Education.

(c) May be satisfied by a two-hour course from any curriculum or from any elective provided such course gives training which will help in directing co-curricular activities in the high school.

(d) To receive credit in Education, all such designated courses must be taught by an instructor or instructors of the Department of Education.

(e) Elective. The five to seven hours' elective courses may be selected from courses Education 6-16, inclusive. If any institution desires to substitute some other courses by way of experimentation it may do so by securing the approval of the Teacher-Training Division of the State Department of Education and also by agreeing to furnish the other training institutions descriptive results of the experiment. All courses in Education must be given in the junior and senior years. Twenty-four hours is the maximum number in Education which may be counted towards graduation in any program for the certification of high school teachers.

RULES AND REGULATIONS FOR DEGREES, DIPLOMAS AND TEACHERS' CERTIFICATES

All teachers in any public school of this state must hold valid certificates issued under and according to the laws of West Virginia. Any person who is issued a teacher's certificate must have a good character and be at least eighteen years of age on the first day of October of the year in which the certificate is issued.

PERTINENT INFORMATION

1. Each teacher is individually responsible for securing and renewing his own certificate. An error on a certificate will be corrected only in case such error is reported by the holder of the certificate within one year from the date on which the certificate was issued.

2. All certificate requirements and rulings are based upon SEMESTER HOURS.

3. A "C" average on all credits earned after the close of the first semester of the school year of 1933-34 is required for original and renewed certification.

4. The qualifications prescribed in the regulations for issuance of teaching certificates are minimums not optimums nor maximums.

Local school authorities may require additional or higher qualifications than those prescribed by the Department.

5. West Virginia does not validate teachers' certificates or licenses issued in any other state. However work done in accredited schools of other states which conforms in subject matter with the curricula of West Virginia will be accepted toward meeting the requirements of any certificate in this state.

6. Credits earned by correspondence after July 1, 1934, will not be accepted by the State Department of Education for certification of teachers.

7. A fee of \$1.00 in CASH must accompany each application except the renewal of the professional certificate which requires \$5.00.

8. Credits, once placed on file in the Division of Certification, are permanent records and can not be removed. There are also many requests for copies of transcripts that the Department finds it impossible to meet the demands, owing to the limited number of employees. However, persons may feel free to copy their own credits at any time.

9. An applicant with five years teaching experience may be excused from taking directed teaching on the recommendation of the head of the department of education of the school from which he has met his residence requirements.

10. 120 days of actual teaching in the regular school term constitute experience sufficient to claim advance salary as provided by law.

11. When all teaching opportunity has been utilized and the certificate holder shows intention to continue in teaching as a vocation, the certificate will be renewed upon the recommendation of the county superintendent. It will be necessary to complete the school credit requirement the same as in any other case.

12. All certificates, except the second grade elementary made by examination, are based upon high school graduation.

13. Only 9 hours credit may be earned by teachers in service during 1 year of teaching, not more than 6 of which may be earned in 1 semester.

14. Reading Circle work for the renewal of certificates was discontinued in 1933.

15. The Division of Certification finds it impossible to evaluate credits which are not listed by groups and by descriptive titles.

16. Evaluations are made by the State Department for out of state schools only. Teachers who have attended state schools should secure information concerning evaluations from the school where they were graduated or met their residence requirements.

17. Certification in West Virginia is based upon subjects completed as well as degrees granted.

18. High school certificates are valid in elementary schools for those teachers only who have had at least 1 years' experience in the elementary schools between July 1, 1928, and June 30, 1934.

19. The State Department of Education does not maintain a teacher placement bureau.

20. Any candidate for certification may qualify under the old or the new requirements until July 1, 1937, from which date all who apply for certification shall qualify under the new requirements.

21. Out of state experience may count on the renewals of certificates.

22. A maximum of 5-8 of the credit (not to exceed 20 hours) completed in the 5th year of normal training high school with a "C" average may be accepted toward certification or graduation of elementary teachers. The original record or a certified copy must be placed in the office of the Secretary of the State Board of Education.

HOW TO SECURE AN ORIGINAL CERTIFICATE

1. Read all regulations and apply for a teachers certificate only when you have fulfilled the requirements.

2. To avoid delay and unnecessary correspondence please follow directions.

3. Secure the proper application form from your county superintendent, your college, or the State Department of Education.

4. Give complete information as requested. Leave no spaces blank.

5. Name must be given in full (no initials). A married woman should give maiden name also, when credits or certificates were earned before marriage.

6. Send the application to the college where residence work was completed, asking the registrar to transcribe the credits to page 2 of the state's official form. (College transcripts are not acceptable.) It is also necessary to secure the recommendation of the head of the department of education.

7. Persons receiving correspondence from this Department concerning application for certificates should return the letter received with their reply. This will greatly facilitate the issuance of certificates.

8. A certificate is not delivered directly to the teacher but sent to the county superintendent, according to directions given by the applicant. The county superintendent will deliver the certificate to the owner or file it in his office and notify the owner. A certificate becomes valid when countersigned by the superintendent.

- b. 5 years of teaching experience or 12 units of high school credit. (2 units of high school credit may be used in lieu of 1 year of teaching experience providing the credit has been earned in high school and not taken by extension, correspondence, or given through grades earned by examination.)

REQUIREMENTS FOR THE RENEWAL AND REINSTATEMENT OF CERTIFICATES

Applications for renewal and reinstatement must be made through county superintendents who will forward them to the college registrars who, in turn, will be responsible for sending them to the Division of Certification. In no case will applications be considered if they have passed through the hands of the applicant any time after they have been submitted to county superintendents.

Teachers who have met all requirements for renewal and reinstatement of certificates are urged to present their applications before March 1 of the year in which the certificate expires.

In accordance with an act of the 1933 session of the Legislature, 6 hours of accredited work, completed after the issuance of the certificate to be renewed, are required for each renewal of ALL certificates, except the First Grade Temporary Certificate which requires 8 hours.

Repeated courses cannot count on the renewal or reinstatement of certificates.

Evidence that teachers are sixty years of age or over may be used in lieu of school credit when presented for the renewal or reinstatement of their certificates.

FIRST CLASS CERTIFICATES (Superintendents, High School Principals, Supervisors, High School, Elementary Principals, Collegiate Elementary, Normal and First Grade Elementary) may be renewed upon expiration, or within the year following, for 5 year periods, providing holders have met all the following requirements:

- b. Completed 6 hours unprescribed work by residence or extension in an accredited institution after the date of issuance of the certificate to be renewed.
- c. Secured the recommendation of their county superintendents.

SHEPHERD STATE TEACHERS COLLEGE

THIRD CERTIFICATES are issued as third renewals of any of the above listed first class certificates. Applicants must meet the same requirements for third renewals as for first and second renewals.

Third class 3 year certificates may be REINSTATED up expiration of within the 3 years following, providing holders have met all of the following requirements:

1. Certificate not used during the last year of its validity.
2. Completed 4 hours supervised work by residence in person in an approved institution after the date of denial of the certificate to be reinstated.
3. Secured the recommendation of their county superintendent.

Only 3 year certificates may be reinstated and these are reinstated only once in each 3 year period.

Spouses of Married couples are not required to do additional work, but the renewal or reinstatement of 3 year certificates.

3 YEAR EXCHANGE may be used in lieu of 3 semester hours for the renewal or reinstatement of 3 year certificates if the holder is married to a person licensed or under license. Only 3 hours may be earned in this manner. A combination of travel and college study may be accepted. The Division of Certification reserves the right to withhold credit if this has not been used profitably.

3 semester hours for 3 year attendance at the University of Pennsylvania is all accepted for the renewal or reinstatement of 3 year certificates when an efficient certificate is submitted.

Those credit hours have been earned after the issuance of a certificate to be renewed or reinstated the same as before.

PROFESSIONAL CERTIFICATES may be renewed upon expiration of within the year following for 3 year periods, providing holders have met all of the following requirements:

1. Completed 4 hours work by residence in person in a school or institution after the expiration of the certificate to be renewed.
2. Secured the recommendation of their county superintendent.

PROFESSIONAL CERTIFICATES may be renewed annually for a maximum of within the year following, providing holders have met all of the following requirements:

1. Completed 4 hours work, plus the 300 hour requirement in residence or institution in an approved institution, after the expiration of the certificate to be renewed.
2. Secured the recommendation of their county superintendent.

SECOND CLASS TEACHERS may be renewed upon expiration of within the year following for 3 year periods, providing holders have met all of the following requirements:

1. Earned at least 4 semester credits equivalent to 6 semester hours in the last 3 years of the 3 year period.
2. Completed 4 hours work of the renewal certificate to be renewed or reinstated in an approved institution after the expiration of the certificate to be renewed.
3. Secured the recommendation of their county superintendent.

Non-Credit Subjects

Arithmetic. A standard Arithmetic Test is given all students preparing for elementary school teaching and students who elect Science or Mathematics as a high school teaching subject. The standard for the eighth grade must be met or the student is required to take additional work in the subject.

This test is given at 11 o'clock on the first Friday of each term or semester.

English. A standard English test is given all first year students.

This test is given at 9 o'clock on the Fall enrollment day for freshmen.

Those who do not meet eighth grade standards are required to take the work without credit until the standard is reached.

Writing. All students are required to make a grade of 70 on the Ayres Handwriting Scale before receiving credit on Education 103.

Resident Work

1. The term "Resident Work" shall be interpreted to mean either—

- (a) Work done on the campus of the institution or
- (b) Work done under conditions that in the opinion of the faculty give the student approximately the same institutional privileges and influences as are afforded students in regular attendance in residence, or

(c) Work done in a school organized by the institution away from the institutional campus when at least half of the members of the institutional staff are members of the faculty of the institution.

2. The amount of resident work required in the school that grants a degree or diploma and recommends the applicant for a certificate, is as follows: Collegiate and Standard Normal, 36 weeks; Temporary Certificate, 9 weeks. By approval of the State Board of Education an exception to this requirement may be made for teachers who have had ten or more years' successful teaching experience.

Extension Work

1. The amount of extension work that may be accredited in meeting the requirements for certificates is as follows:

College	24 hours
Standard Normal	12 hours
Temporary Certificates	4 hours

2. The total amount of extension work that may be done during one term of teaching shall not be more than 8 hours.

SUMMER SCHOOL

A Summer School for teachers and those expecting to teach was first instituted here during the summer of 1907. The experiment proved so successful that a similar school was again instituted in the summer of 1908. The thirty-first annual summer school was opened June 14, 1937. The length of term is nine weeks.

Those who are interested in summer school work for next year should notify the President, or A. D. Kenamond, director of summer school, early in the spring of 1938.

OUTLINE OF WORK BY DEPARTMENTS
